To Whom It May Concern:

It is pleasure that I write this letter of recommendation for Ruslan Temirkhanov. I had the pleasure of meeting Ruslan 4 years ago when I worked with him while I was the General Manager for 230 FIFTH. I have seen him grow personally and professionally through his insight and ability to see everything he does with such a talent for perfection.

Ruslan has the ability to take a brand that he is working with and turn it into a success! I have introduced Ruslan to many of business clients who have seen that same drive and determination in all that he does, which truly is so far and few between these days.

Please use this letter as my confidence in recommending Ruslan Temirkhanov to any project that he wants to be involved in. If you require anymore information please feel free to contact me at the number below.

Sincerely,

David Patten
